SICK
Sensor Intelligence.

DETECTION AND RANGING SOLUTIONS

- 2D laser scanners
- 3D laser scanners
- Radar sensors

IDENTIFICATION SOLUTIONS

- Image-based code readers
- Bar code scanners
- RFID
- Hand-held scanners
- Connectivity

VISION

- 2D vision
- 3D vision
- Sensor integration machine

AUTOMATION LIGHT GRIDS

- Measuring automation light grids
- Switching automation light grids

DISTANCE SENSORS

- Displacement measurement sensors
- Mid range distance sensors
- Long range distance sensors
- Linear measurement sensors
- Ultrasonic sensors
- Optical data transmission
- Position finders

ENCODERS AND INCLINATION SENSORS

- Absolute encoders
- Incremental encoders
- Linear encoders
- Wire draw encoders
- Safety encoders
- Inclination sensors
- Measuring wheel encoders

FLUID SENSORS

- Level sensors
- Pressure sensors
- Flow sensors
- Temperature sensors

REGISTRATION SENSORS

- Contrast sensors
- Markless sensors
- Color sensors
- Luminescence sensors
- Fork sensors
- Array sensors
- Register sensors
- Glare sensors

PROXIMITY SENSORS

- Inductive proximity sensors
- Capacitive proximity sensors
- Magnetic proximity sensors

PHOTOELECTRIC SENSORS

- Miniature photoelectric sensors
- Small photoelectric sensors
- Compact photoelectric sensors
- Cylindrical photoelectric sensors
- Fiber-optic sensors and fibers
- MultiTask photoelectric sensors

SAFETY SWITCHES

- Electro-mechanical safety switches
- Non-contact safety switches
- Safety locking devices
- Safety command devices

OPTO-ELECTRONIC PROTECTIVE DEVICES

- Safety laser scanners
- Safety light curtains
- Safety camera systems
- Multiple light beam safety devices
- Single-beam photoelectric safety switches
- Mirror columns and device columns
- Upgrade kits for opto-electronic protective devices

SENS:CONTROL – SAFE CONTROL SOLUTIONS

- Safe sensor cascade
- Safety controllers
- Motion Control safety controllers
- Safety relays

LifeTime Services

Whether you need consulting and design services, on-site product training or help with navigating technology upgrades, SICK can support you with the services you need.

SICK's full range of LifeTime Services are the perfect compliment to our comprehensive portfolio of innovative products. The services range from product-independent consulting to traditional product support services. Our services are characterized by our exceptionally broad competence, obtained through our experience as the largest focused producer of sensor technology. Our services focus on increasing the productivity of your lines and equipment and ensuring your employees work in the safest environment possible.

Control Source Inc. is your Elite SICK Distributor for NC, SC & TN.

We offer competitive prices, reliable service and solid technical expertise. At Control Source Inc., our goal is to provide you with courteous, expedient, professional service at the highest caliber. Our technical sales team has solved thousands of application challenges across a broad range of industries. We create value by providing a superior customer service experience, free technical support and many custom services.
